your LOGO

The VERA YOUNG brand was born out of a love for unique fragrances and a desire to provide candles of the highest quality. We noticed the lack on the Polish market of brands that not only offer a wide range of fragrances, but also meet the expectations of people with a refined sense of smell, able to surprise at the same time with innovative compositions. What was once just a hobby for the brand's owners turned into something more after a few years.

From this passion and experience in creating candles for themselves and loved ones, Vera Young Candles was born. From the very beginning, the brand's goal was to evoke delight and enchantment, transporting each recipient to a better, aromatic world. Vera Young not only offers the highest quality products, but also introduces innovative and captivating fragrances that bring a unique atmosphere to customers' homes and inspire them to discover beauty in everyday moments.

A carefully created combination of unique fragrance notes: amber, incense and cashmere, form the heart of this extraordinary candle. In addition, notes of ginger, vanilla, cinnamon and delicate accents of tobacco leaves are incorporated. The result of this aromatic marriage is a candle whose fragrance evokes associations with a library atmosphere, filled with the scent of old, precious books. This is a unique sensory experience that transports you to the magical world of literature, wrapping the interior with subtle elegance.

A subtle blend of flowers and fruits with a noticeable leathery note. Juicy plum, intense pomegranate, romantic rose and delicate violet create a harmonious whole. In addition, sweet accents of vanilla and deep patchouli give this elegant composition a unique character. This unique scented candle will meet the expectations of even the most demanding lovers of aromatic sensations.

Move deep into the forest with an intense, powerful aroma. The head notes are dominated by pine and eucalyptus, creating a fresh and energizing experience. The heart composition is the pure scent of pine, which envelops you in forest freshness. In the base of the fragrance you'll find a combination of pine, cedar, delicate sandalwood and subtle hints of musk, which give the whole fragrance longevity and depth. It's not just the scent of forest wood, it's a journey into nature that saturates your home with the intense aroma of the forest, creating an atmosphere of peace and harmony.

HANNI | bees wax candles

Did you know...

The first candles were used at least 3,000 years ago. They were mainly used for religious ceremonies. Later, they were also used as a method of measuring time - the simplest method was to stick a piece of metal into the candle. As the wax around it melted, the metal falling on the plates signaled the passing of time.
